Chair: Professor Tessa Rajak, MA, DPhil

Affiliated to the British Friends of the Hebrew University of Jerusalem

Application for a Grant from The Anglo-Israel Archaeological Society

The Anglo-Israel Archaeological Society was founded in 1961 to promote and disseminate investigation and understanding of all periods of Near Eastern Archaeology. It is a non-political charity that embraces the various cultures and religions of the region. To find out more about the Society visit our webpage: www.aias.org.uk or visit us on Facebook: <http://www.facebook.com/Israel/Archaeology/London>

In 2019 the Society will offer The Nicholas Slope Memorial Award and a limited number of further grants not exceeding £500, to assist undergraduate and postgraduate students from the United Kingdom who wish to gain archaeological experience in Israel through practical participation in archaeological projects or through other appropriate activities. These grants normally serve to cover part or the whole of the cost of travel.

To apply for a grant, please fill in the attached application form and send it by post or (preferably) by email together with a CV to:

The Administrator, Anglo-Israel Archaeological Society
2nd Floor, Supreme House, 300 Regents Park Road, London N3 2JX
Email: secretary@aias.org.uk

**YOUR APPLICATION SHOULD REACH THE ADMINSTRATOR BY
WEDNESDAY 20th MARCH 2019
Applications received after this date will not be considered.**

Please note that we cannot process any application without two suitable references (for details see the application form). Please send the referee's form to each of your referees and ask them to email their references directly to the Administrator by the above date. These references should either be signed electronically or followed by a hard copy.

Applicants must be studying in the UK at the time of their application. Selection for grants will be on the basis of the merits of the project and abilities of the candidate and the benefit of the project to the applicant's future development.

If a grant is offered and accepted, but the project does not materialize, the grant must be returned as soon as possible. **If a change of plan is necessary applicants must seek approval from the Committee in advance.** This will not affect the chances of success of any subsequent application you make in another year. If the project is carried out, it is a condition of acceptance that a short report, preferably illustrated, of about 500 words should be submitted to the Society by the end of October of the year in which the grant is used. The report may be included in *Strata*, the Society's Bulletin and posted on the website.

Sheila Ford,
Administrator
